

BELKAM POWER

1.5KVA Hybrid Inverter - Product Datasheet

The Belkam 1.5KVA Hybrid Inverter combines inverter, charger, and solar management in one unit. Ideal for homes, offices, and small businesses requiring stable backup power and lower electricity costs.

Key Features

- Hybrid power technology with solar priority
- Pure sine wave output for sensitive electronics
- Intelligent battery charging (12V/24V systems)
- Integrated MPPT/PWM solar charge controller
- LCD display for status monitoring
- Overload, short circuit, and temperature protection

Technical Specifications

Rated Capacity: 1.5KVA

Output Voltage: 220V - 240V AC

Waveform: Pure Sine Wave

Battery: 12V / 24V (configuration dependent)

Solar Input: Compatible with MPPT/PWM controller

Typical loads: LED TV, fans, lighting, laptops, router, small refrigerator, and office equipment.
