

BELKAM POWER

3.5KVA Hybrid Inverter - Product Datasheet

The Belkam 3.5KVA Hybrid Inverter delivers higher capacity for larger homes, shops, and commercial spaces. Manages solar, battery, and grid power intelligently for uninterrupted supply.

Key Features

- 3.5KVA continuous power for heavier loads
- Pure sine wave output
- Solar-first energy management
- Fast switching for power outages
- Robust protection systems
- Suitable for residential and light commercial use

Technical Specifications

Rated Capacity: 3.5KVA

Output Voltage: 220V - 240V AC

Waveform: Pure Sine Wave

Application: Home, office, retail, clinics

Compatible with Belkam MPPT controllers and batteries

Supports multiple AC units, refrigerators, pumps, and business equipment depending on total load calculation.
